Other birds seen at different times of the year: Snowy Egret White-faced Ibis Turkey Vulture Bald Eagle Northern Harrier Golden Eagle Western Screech-Owl Brown-headed Cowbird

For a total of 114 species seen in the wetlands since September of 2009. We are proud of the change we have made to our land and the resulting bird habitat. Next bird count will be in the spring of 2022. We will keep you posted of other sightings. We thank the members of the Durango Bird Club who donate their time.
